Greeting card maker template

Business cards are an important part of the advertising of your business. They are also one of the most affordable, especially if you design your own. Creating a business card template with Microsoft Word or creative software like Photoshop is useful because you can go back and edit your information as it changes over time without having to start from scratch with the card designer. Select Business Cards from the template menu. You will get a list of business card templates to choose from or a blank template. Select the blank template. Open Word and go to the Microsoft Office Online menu and select the Business Card option. Click Print Business Card. Select a basic business card template, such as Executive Business Card (When the template opens, delete the information on the card and save the project as a template by going to the File menu, pointing to Save As, and selecting Save as Word Template. Create a template from scratch in a creative software by selecting New Project. Set the size as 2 x 3 1/2 inches for a larger business card or 3 inches x 1 1/2 inches for a smaller card. Save your project as a template by going to the File menu, pointing to Save As, and selecting Save as Template. Tip Save the project as a template file so that it can be used as a template and appears in the list of templates when you open the program. We can earn commission from links on this page, but we only recommend products we return. Why trust us? Think of one of these memorial-worthy reuse des 19, 2013 Courtesy of Upcycle Your Life Stop!
